THE VOICE OF SOUL

Kamiya Hiroshi, a name well-known throughout Japan, is the most awarded and influential voice actor now in ACG circle and broadcasting program, and also, is the most respected and loved person in my life.

Since the first collaboration with him in *MegaMan EXE Stream* in 2000, I have known and watched this man for about 14 years. After establishing now-famous broadcasting program *DearGril~Stories~* (DGS) in 2007, I've become his strongest workpartner by public view. Then there came mangas, dramas, and games based on us two's characters. In 2010 we even debut in *THE MOVIE* from DGS, and became the first broadcast program to hold event in Nippon Budokan.

I with Kamiya San have obtained so much honors together by so far. In his coming age of 40, I herein write this book to memorize every second of happiness of life with him, including his endeavor to work, his concern to others, his merry and distress- for such a beautiful soul.

***I'll be at your feet forever,
never let you alone***
